# The Army Budget

## Preface

The Army Budget "Green Book" is prepared by the Army Budget Office, Office of the Assistant Secretary of the Army for Financial Management & Comptroller, Headquarters, Department of the Army, Washington, D.C. 20310-0109, commercial telephone number (703) 697-6241, DSN 227-6241. Its purpose is to provide the Army leadership, OSD and members of Congress and their staffs a reference to the Army's FY 1997 Budget Request (President's Budget) as submitted to Congress on March 18, 1996. It is not intended to be used as a substitute for the official budget submission. The following clarification of information in the "Green Book" is provided:

- The FY 1995 and prior year information represents actuals, and includes supplementals for contingency operations in Somalia, Bosnia, Southwest Asia, Operation DESERT STORM, Operation Restore Hope, and for Environmental Compliance and Restoration funding, unless stated otherwise on individual charts.
- The FY 1996 information represents the FY 1996 column of the FY 1997 President's Budget, which includes amounts appropriated (or expected to be appropriated in the case of the Supplemental) by Congress.
- The FY 1997 information represents the Army's request to Congress for the budget year.
- All dollar figures represent Total Obligation Authority (TOA) in current dollars, unless stated otherwise on individual charts.
- Number totals on some charts do not add due to rounding.
- Questions concerning the source or interpretation of the information in this booklet may be directed to Ms. Mary E. Luznar, Budget Formulation Division, Army Budget Office (SAFM-BUC-F), at Commercial (703) 697-6241 or DSN 227-6241.

**FY 1997 ...**

“...This budget balances the demands of recruiting high quality soldiers and preserving near-term readiness, while we prepare to provide for long-term modernization needs....The budget before you reflects today's fiscal realities, and it also reflects the Army's commitment to our nation. That commitment is to serve America proudly -- as the Army has for over 220 years -- and to ensure that our soldiers are trained, equipped, and fully prepared for the missions they are called upon to perform.”

*Togo D. West, Jr.  
Secretary of the Army  
March 1996*

“Inside the Army we have sought to keep things in balance. Our objective is to get the right balance between force structure, modernization, and Quality of Life....America's Army is trained and ready today and is working hard to meet inevitable challenges of tomorrow and in the twenty-first century.”

*General Dennis J. Reimer  
Chief of Staff, U.S. Army  
March 1996*

# The New Strategic Environment... More Complex, More Diverse!

## The Army Today

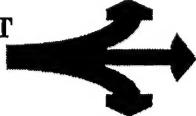

1

This security environment and the domestic support mission require a versatile, flexible, and responsive American Army for a broad range of sustained operations at home and abroad. In the last several years, America's Army has been the hub of Joint Operations and the Force of Decision. Since the end of the Cold War, the Army's unique capabilities and staying power have made it the "decisive force" in responding to regional conflicts. Likewise, our ability to respond rapidly with combat power and logistical support has made America's Army the force of necessity in responding to international crises.

The Nation depends on the Army for...

- WARFIGHTING
- DETERRENCE
- PEACETIME ENGAGEMENT
- DOMESTIC SUPPORT
- OVERSEAS PRESENCE
- CONFLICT PREVENTION
- PEACEKEEPING

And America's Army delivers!

- IRAQ
- KOREA
- RWANDA
- FLORIDA, MISSOURI
- SINAI
- MACEDONIA
- BOSNIA

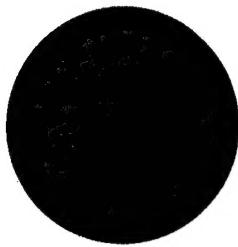

## **Increased Missions... greater demands on soldiers and Army families.**

### **The Army Today**

**2**

- On a typical day in the 1990s, the Army has 138,000 soldiers providing OVERSEAS PRESENCE for the United States. Over 40% of the Army's Fighting Forces are performing this essential mission RIGHT NOW!
- The average fighting soldier spends 138 DAYS away from home each year.
- The operational pace on organizations and equipment, and the personnel tempo for the Army's soldiers, is at an all-time high!

#### Worldwide Deployments

<u>PERSONNEL</u>	<u>MISSIONS</u>	<u>COUNTRIES</u>
20,000	Operational Deployments	80
65,000	Overseas Presence - Europe	22
50,000	Overseas Presence - Pacific	8
3,000	Overseas Presence- Americas	11
138,000		

## **A Different Army...greatly reduced since the end of the Cold War and Desert Storm.**

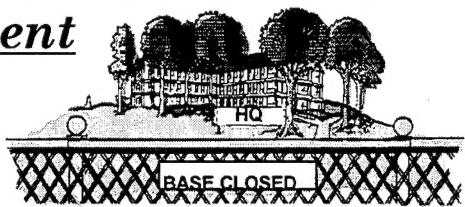

- We have transformed from a forward-based Army to a Power Projection Army, ready to deploy anywhere needed.
- We have gone from 18 Active Army Combat Divisions in 1989 to 10 in 1996. In that same time period, the Army lost 37% of its Active Combat Brigades and 25% of its Active Battalions. 110 Active Combat Battalions were removed from Europe in less than four years!

## **Now More Important Than Ever... America's Community-Based Army.**

- Increased missions at home and abroad, combined with a reduced Active Army have led us to depend more heavily on the Army Reserve and National Guard.
- All soldiers--Active, Guard and Reserve--serve together as part of the Army Team.

**Army infrastructure reductions...  
a demonstrated commitment  
to an affordable  
21st Century Force!**

The Army Today

3

### **Large Reductions At Home...**

- All BRAC rounds together have closed 112 and realigned 27 U.S. bases.

### **Rapid Reductions in Europe...**

- Equal to closing 12 of the largest U.S. bases.
- Closing or downsizing 71% of installations.
- ALL nuclear and chemical weapons removed without incident.
- U.S. Army leaves Berlin, mission accomplished.
- Presence is smaller and no longer focused solely on Europe.

**The Vision for the Future...  
*The Army of the 21st Century!!!***

- More versatile, more agile, more lethal, and capable of *Decisive Victory*.
- An Information Age Force...Digitized!
- Investment in technology today is essential to producing the required capability tomorrow.

***Constrained modernization investment will limit our ability to provide our 21st Century Soldier with the world's best equipment.***

"We seek...stability in our budget and force structure so that we can meet today's missions while preparing for the future."

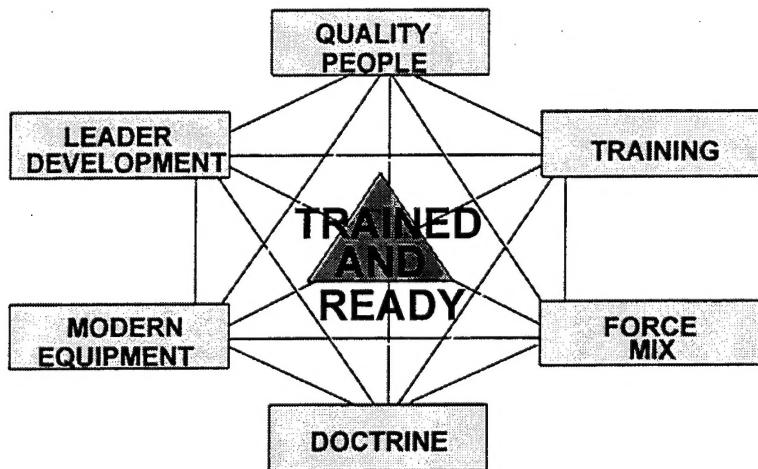

--Togo D. West, Jr.  
Secretary of the Army

## Two Challenges

## *The Army Power Projection Capability for the Future*

### Power Projection

9

- A force with a full range of capabilities, able to deploy rapidly by air or sea.
- Modernized Army installations that enhance mobilization and deployment.
- State-of-the-art, integrated information management to plan and monitor power projection.
- Globally pre-positioned equipment and responsive war reserve support.
- Army power projection objectives:
  - *Provide a tailorable Corps of up to five Divisions with forcible entry capability.*
  - *Lead Brigade on the ground by C+4.*
  - *Lead Division on the ground by C+12.*
  - *Two armored/mechanized Divisions from CONUS by C+30.*
  - *A Five-Division Corps and COSCOM by C+75.*
  - *Sufficient supplies (prepositioned afloat) properly sequenced to arrive and sustain the force until establishment of lines of communication.*

### THE TOTAL ARMY FY97

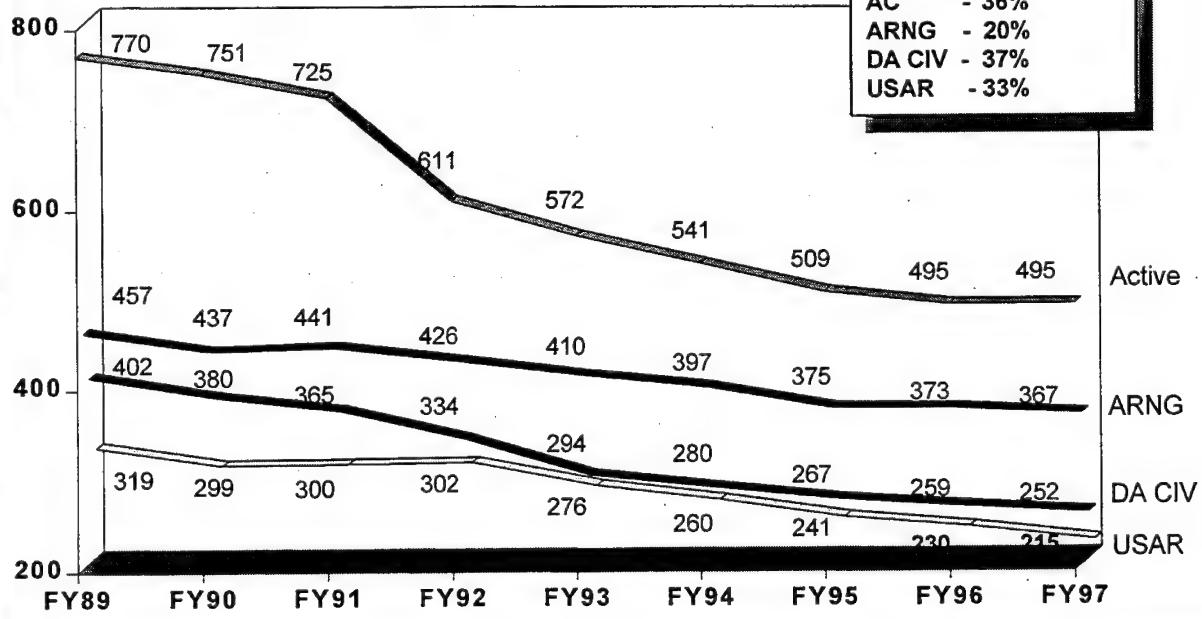

#### Missions of Army Forces (with Allies and Forces of other U.S. Services):

- Deter Aggression or Coercion against the U.S., its Allies, and National Interests abroad
- If Deterrence fails, Fight and Win across the Spectrum of Conflict anywhere
- Provide a full range of options to promote International Stability
- Support Domestic Civil Authority

To accomplish these missions, the Total Army consists of the following Components:

- **Active Component** Forms the Nucleus of the Initial Forces for Combat
- **Reserve Component** Reinforces/Augments Active Forces, Individual Replacements
- **Civilian Component** Provides Critical Support and Sustainment

## America's Community Based Army...

Army Reserve becoming primarily *Support Forces*.

National Guard becoming *Balanced Combat Forces*.

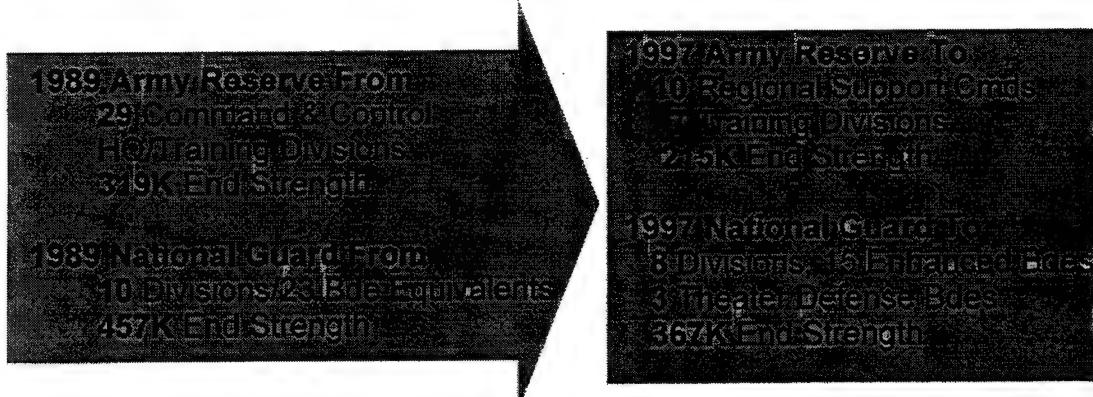

### Reserve Component

14

The roles of Army Reserve and National Guard are changing to leverage their core competencies.

- Reshaping to meet Total Army requirements.
- Essential for Army's short-notice operations.
- Fully integrated into the Army's warplans.
- More involved in Army's day-to-day missions.

At the same time, the Army Reserve and National Guard are downsizing by 26% from FY89-97.

*Increased Army Reserve and National Guard readiness requirements are receiving more active Army training support.*

Army Reserve and National Guard soldiers are an integral part of America's Army... demonstrating their commitment and capabilities every day at home and abroad.

## Funding Profile

21

The Army requested \$60.1 billion in Total Obligation Authority (TOA) for FY97. This level of funding ensures operating accounts are adequate to protect near-term readiness. To obtain maximum return on investment, the budget includes several "fast payback" opportunities that allow reinvestment by reducing the cost of doing business in the future.

The FY97 budget provides an Army capable of accomplishing its near-term missions, while at the same time funding some critical modernization programs. This budget enables the Army to recruit and retain quality people, the Army's most important resource, and to provide essential quality of life programs for soldiers and their families. It adequately funds support of fielded equipment and logistics items which are critical to near-term readiness. The Army has had to defer most facilities infrastructure revitalization requirements, relying on Maintenance and Repair to keep buildings and utilities functioning. The Army also accepted some risk in the modernization accounts because of the high cost of acquiring top-quality equipment. At the same time, critical modernization programs such as Comanche, Crusader, Longbow Apache, and the Family of Medium Tactical Vehicles (FMTV) continue to move forward.

Fiscal resources are not alone in their decline - personnel strength levels, both military and civilian, are declining.

- *The budget provides a smaller, quality force of active and reserve component (AC/RC) forces. The Army will remain well-equipped, trained, and ready in FY97.*
- *The budget provides funding for a 2.4% pay raise in FY96 and a 3.0% pay raise in FY97.*
- *The active component strength will remain constant at 495,000 soldiers at the end of FY97 -- the same as the FY96 active duty end strength.*
- *The Army National Guard and the Army Reserve will be reduced and realigned to meet future force requirements. The Army National Guard end strength will be 366,758 in FY97, and the Army Reserve end strength will be 215,000.*

### Budget Display Categories

- **Budget Activity 1—Operating Forces:** Finances the day-to-day operations of the minimum essential force required to execute the Army's National Defense missions as directed by the National Military Strategy and detailed in Defense guidance and the Army Plan.
- **Budget Activity 2—Mobilization:** Supports the national military strategy of decreased reliance on forward deployed forces and increased reliance on a visible forward presence. Provides prepositioned supplies and equipment for emergency deployment worldwide. Displays costs for mobilization requirements as opposed to operating forces costs. (This is for OMA only. Eliminated for OMAR and OMNG.)
- **Budget Activity 3—Training & Recruiting:** Provides for institutional training and other selected training and training support activities. Challenging training, based upon realistic scenarios and readiness levels, prepares Army units for a variety of missions. (This is for OMA only. OMAR and OMNG funding is included in BA1.)
- **Budget Activity 4—Administration & Service-wide Activities:** Provides for administration, logistics, communications and other service-wide support functions to secure, equip, deploy, transport, sustain and support Army forces worldwide.

**FY97 OMA Total \$18,114.5 M**

## Operations & Maintenance, Army (OMA) 34

The Operation and Maintenance budget maintains readiness objectives by funding air and ground operating tempo (OPTEMPO) and enhances the quality of training at the Combat Training Centers and at installations. The FY97 budget supports OPTEMPO of 800 miles per year for major combat systems and 14.5 flying hours per crew per month for the active force. The budget provides full funding for all known statutory and regulatory environmental requirements.

# Modernization...

The Army *must modernize* to maintain its technological advantage, preserve future readiness and ensure decisive victory. The Army is enhancing its warfighting capabilities across its five modernization objectives by leveraging information technology through digitization to achieve:

- Improved Versatility
- Enhanced Survivability
- Increased Tempo
- Greater Lethality

## Procurement

40

# The Army of the 21st Century is...

- ✓ Organized around information –
- ✓ More versatile and flexible....
- ✓ An Information Age Force... Digitized
- ✓ A Power Projection Force
- ✓ More agile, more lethal and... fully capable of *Decisive Victory!*

## However...

Modernization resources have been severely constrained, requiring the Army to:

- > Extend system fielding times
- > Defer modernization of the Total Force
- > Delay deploying the next generation of systems

## **The Vision of the Future. . .**

*The Army of the 21st Century!*

Procurement

41

**Force XXI is...**

*"Integrating emerging technology for instant situational awareness. A degree of precision, speed, and shared knowledge heretofore unknown...allows us to support combat operations more efficiently improving our power projection capabilities. Finding ways to exploit advanced technology -- that is what Force XXI is all about."*

--General Dennis J. Reimer  
U.S. Army Chief of Staff

***We must invest in technology today to produce the required capability tomorrow.***

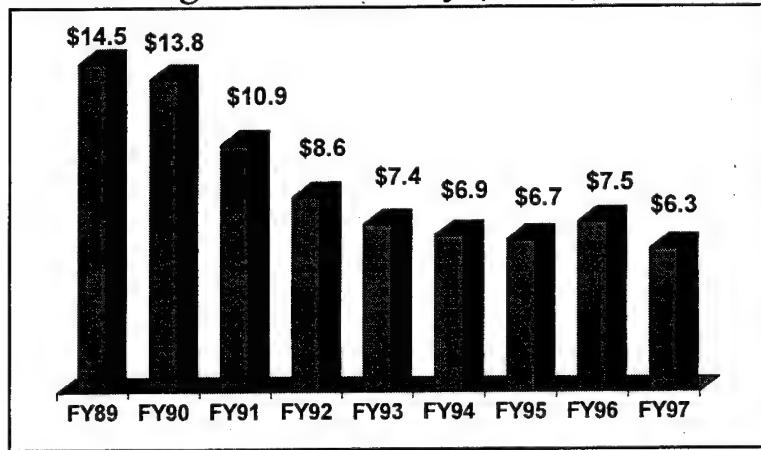

The FY97 budget continues the upgrades to the Abrams tank and Bradley Fighting Vehicle which directly support the Army's initiative to digitize the battlefield. FY97 funding allows for the second year of procurement for Longbow Hellfire, ATACMS Block 1A, and the Extended Range MLRS Rocket. The FY97 budget supports modernization of the basic Apache to the Longbow Apache configuration armed with an improved Hellfire missile processing fire-and-forget capability and begins a new multi-year procurement of UH-60 Blackhawks. The FY97 budget affirms the Combat Service Support's need for improvements in its tactical transportation capability, continuing the multi-year procurement of three critical Combat Service Support needs: the High Mobility Multipurpose Wheeled Vehicle (HMMWV) and the Family of Medium Tactical Vehicles. The FY97 budget provides training ammunition and advanced 120mm tank rounds and supports a reduction of the backlog in ammunition demilitarization.

## Research, Development, Test & Evaluation (RDTE)

48

The Army RDTE Program sustains a level of funding for a strong Science and Technology Base which reflects the need to maintain technological superiority. Funding is included in the FY97 budget for continuing the development of the JSTARS, Comanche, BAT, CRUSADER, and SADARM programs. Operational Systems Development funds are budgeted to continue the Combat Vehicle Improvement Program and for Horizontal Battlefield Digitization, which is the application of common technologies across multiple systems through an integrated and seamless battlefield architecture. There are no major new initiatives.

## MILCON, Army

50

The Military Construction budget continues to focus on facilities that upgrade the capabilities of Army installations as power projection platforms. New facilities include modern barracks, computerized training simulators, strategic mobility infrastructure, and an overseas prepositioning site. The Family Housing budget includes the construction and revitalization of housing as well as the operation and maintenance of 137,000 Army family housing units world wide.

### ALLIANCE RELATIONSHIP

- 1949 *North Atlantic Treaty Organization (NATO)* 16 Nations
- 1947 *Inter-American Treaty of Reciprocal Defense (RIO Pact)* 29 Nations
- 1951 *Australia - New Zealand - United States (ANZUS)* - 3 Nations\*
- 1951 *Mutual Defense Treaty between United States and the Republic of Philippines*
- 1954 *Mutual Defense Treaty between United States and the Republic of Korea*
- 1954 *Southeast Asia Collective Defense Treaty (Manila Pact)* \*\*
- 1960 *Treaty of Mutual Cooperation and Security between United States and Japan*
  - New Zealand suspended since 1986

\*\* Constitutes the basis of U.S. commitment to Thailand

## *Wartime Host Nation Support (WHNS) and Logistics Civil Augmentation Program (LOGCAP)*

Bridging combat support and combat service support shortfall by acquiring extensive assets and capabilities from foreign governments and the global corporate world, respectively.

WHNS

55

**U.S. / Germany  
Agreement  
(WHNS)**

- General and Military Implementing Technical Agreement (MITA) signed 15 April 1982 and 13 June 1986, respectively.
- MITA revised to reflect force structure changes in Europe.
- As revised, provides 44 German reserve units (29.5K personnel) from 39 locations in support of USAREUR.
- All units activated: transportation, ammunition, POL, signal, casualty evacuation, engineer, security.
- Fills CS/CSS force structure requirements to support reinforcement of the Central Region.

**U.S. Army Pacific  
(USARPAC)  
WHNS**

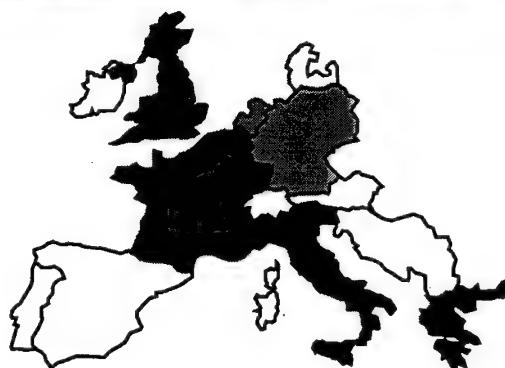

- Friendly Allied Nations Support (FANS) maintains CS/CSS capabilities data on 43 Pacific nations which may be requested to support the U.S. Army in the Pacific during crisis and war. Most functional support areas are covered by FANS.
- USPACOM Contingency Acquisition Program (P-CAP) identifies prime contractors and other commercial resources, which are located in the Pacific, and may be contracted in crisis and war to support U.S. forces. USARPAC is the executive agent for P-CAP.
- FANS and P-CAP are very adaptable for conversion to formal WHNS agreements and Logistics Civil Augmentation Program contracting, respectively.

**WHNS**

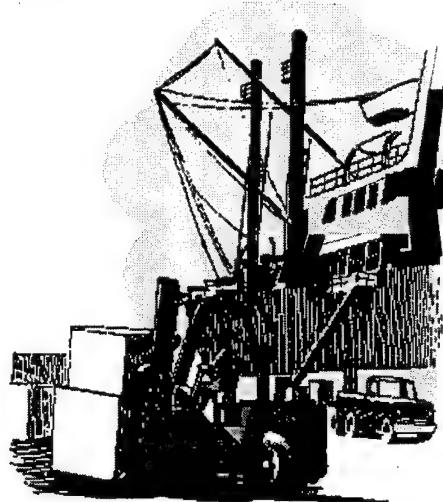

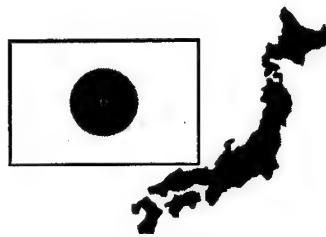

**56**

**European Command  
WHNS**

- WHNS agreements: Belgium, Netherlands, Luxembourg, United Kingdom, Denmark, Canada, Norway, Italy, Germany, Turkey, Israel and British Forces in Germany. Initial draft agreements have been made with Tunisia, Portugal, Spain and Greece.
- Much support from civil sectors in nearly every CS/CSS area. More advanced lines of communication are in Denmark, UK, Benelux and Germany.

## Japan WHNS

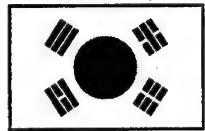

- Consists of two programs:
  - Contingency Mutual Support (CMS): Provides WHNS to U.S. forces for the internal defense of Japan, to include its territorial waters and airspace.
  - Facilitative Assistance (FA): Provides WHNS to U.S. forces which are involved in contingencies outside of Japan.
- Informally planned for U.S. Army support in most CS/CSS areas.

## WHNS

57

## Korea WHNS

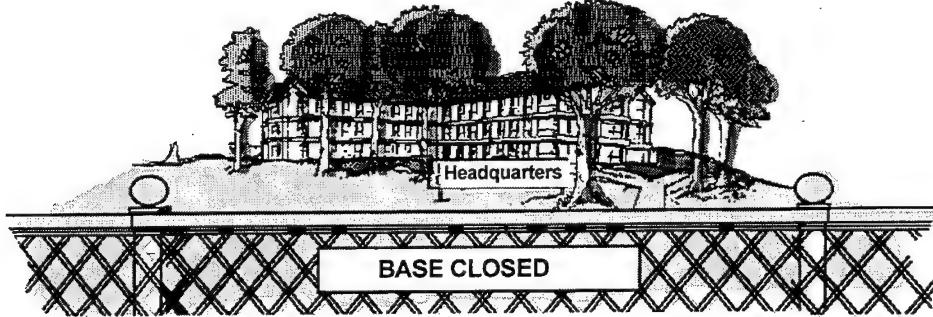

- U.S. Korea WHNS umbrella agreement was signed on 21 November 1991. First such agreement in the Pacific.
- Provides much paramilitary and civil support in most CS/CSS functional areas. Korean augmentation to the U.S. Army and Korean Service Corps provides extensive personnel support in peace and war.

## Logistics Civil Augmentation Program (LOGCAP)

- DA ODCSLOG is proponent and U.S. Army Corps of Engineers provides program management.
- Provides civilian contracts in peacetime to meet U.S. Army wartime and contingency support requirements, worldwide, through the advanced identification and planned acquisition of global corporate assets.
- A force multiplier which provides rapid, flexible support to augment multi-functional CS/CSS units.

## Base Realignment & Closure (BRAC)

Closing military facilities is a challenging process. Every installation recommended for closure or realignment has enjoyed a proud history and has offered a priceless service to our nation. These installations also have become an integral part of their local communities.

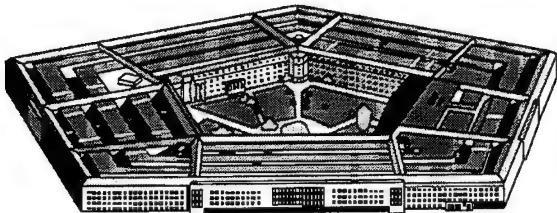

### BRAC

58

The undeniable fact remains, however, that U.S. military requirements have been altered fundamentally. The end of the Cold War, combined with the growing urgency to reduce the Federal budget deficit, compels the United States to realign its military forces.

Congress enacted the Defense Base Closure and Realignment Act of 1990 (Public Law 101-510), as amended in order to reduce the number of military installations in the United States.

What follows is a list of bases affected and a financial summary for each BRAC round.

### Organizational Clothing & Individual Equipment (OCIE) (\$M)

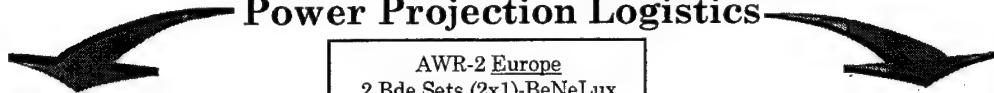

## OCIE

64

- FY97 modernization program centrally funds/fields initial issue of improved and modernized clothing and individual equipment for the Active and Reserve Components. Modernized OCIE is a force multiplier which supports the soldier system and enhances soldier survivability, performance and comfort.
- Items programmed for procurement:
  - Advanced Combat Vehicle Crewman Helmet
  - Ballistic Laser Protective Spectacle/Special Protective Eyewear Cylindrical System
  - Soldier Fighting Cover
  - Modular Sleep Bag
  - Improved Rain Suit
- The Army's goal is to enhance soldier survivability on the modern battlefield by:
  - Lightening the load of the individual soldier
  - Providing state-of-the-art Weather Resistant and Ballistic Protective Clothing and Individual Equipment.
